

# Laith Alkhaddam

## Full-Stack Developer

him@iconical.dev [Telegram](#) - [Portfolio](#) - [Github](#)

### Summary

Full-Stack Developer with experience building scalable and high-performance web applications using modern technologies. Skilled in designing and developing complete systems, including frontend interfaces, backend logic, and APIs. Combines technical expertise with strong UI/UX understanding to deliver polished and efficient products.

### Experience

#### Full-Stack Developer

Jan 2022 - Present

- Developed full-stack web applications using modern frameworks and technologies
- Built responsive frontends and structured backend systems with API integration
- Designed and managed databases for scalable and efficient data handling
- Focused on performance, usability, and clean architecture

#### Web & Systems Developer

Sep 2020 - Present

- Built interactive platforms with strong UI/UX focus and real-time features
- Implemented authentication, user systems, and data-driven functionalities
- Developed reusable components and structured application logic
- Optimized applications for performance and scalability

### Education

#### Bachelor's Degree in Computer Engineering

2022 - Present · Bahçeşehir Üniversitesi

- Focus on software engineering, web development, and system design
- Developed full-stack applications using modern frameworks and technologies
- Built scalable systems with frontend, backend, and database integration
- Strong foundation in problem-solving, algorithms, and structured development

### Projects

#### Swush (Self-Hosted Media Platform)

Next.js, TypeScript, PostgreSQL · 2025

- Built a full-stack file and media sharing platform with streaming support
- Developed features including uploads, short links, watchlists, and tagging systems
- Designed responsive UI with focus on performance and user experience

#### OopsBudgeter (Self-Hosted Finance App)

Next.js, TypeScript, PostgreSQL · 2025

- Built a full-stack personal finance application with transaction tracking and analytics
- Implemented authentication, data management, and responsive PWA functionality
- Designed scalable system with forecasting features and modern UI/UX

Check out the projects I worked on! [here](#)

### Skills

Full-Stack Development  
Frontend Development  
Backend Development  
API Development & Integration  
Database Design & Management  
Authentication & Authorization  
System Design  
Scalable Architecture  
UI/UX Development  
Responsive Design  
Performance Optimization  
Code Optimization  
Problem Solving  
Debugging  
Object-Oriented Programming (OOP)  
Data Structures & Logic  
Version Control (Git)  
RESTful APIs  
State Management  
Attention to Detail  
Rapid Development

### Tools/Technologies

**Frontend:** React, Next.js, Tailwind CSS

**Backend:** Node.js, Express

**Programming Languages:** TypeScript, JavaScript, C#

**Databases:** PostgreSQL

**Authentication:** JWT, Session-Based Auth

**APIs & Data:** REST APIs, JSON

**Version Control:** Git, GitHub

**Dev Tools:** Docker, VS Code, Visual Studio

**UI/UX & Design:** Figma, Responsive Design Systems

### Languages

- Arabic (Native)
- English (Native)
- Turkish (Basic)
